IPA ADRION

Interreg post 2027 consultation

IPA ADRION 8th Monitoring Committee meeting
19-20 February 2024

Preparation of post 2027 programming period in the start-up phase

The future Interreg should be based on the experience of programmes, stakeholders and citizens. They are those who are the most concerned by the policy and know best the needs for territorial cooperation across the EU and along its external borders.

DG REGIO

In view of the first draft of post 2027 legislative package planned for mid 2025, DG REGIO asked Interreg Programmes a proactive contribution for the definition of future INTERREG programmes

Interreg Programmes have been invited to conduct non-statistical consultation by end of 2024 on how Interreg should look like after 2027.

Preparation of post 2027 programming period in the start-up phase

PRESENTATION

2024 “A decisive year”. Key events.

How consultation shall be performed

The guide indicates:

- Whom to consult;
- The minimum requirements the questionnaire should have
- The deadline of the consultation exercise
- The structure of the report to be sent to the EC

Proposed methodology

- Takes advantage from Interreg Volunteer Youth support
- Consultations performed also through the contribution of National Contact Points
- Considers programme core Technical Assistance financial constraints
- Be done via web/online
- Takes advantage of events organized at Adriatic-Ionian level by relevant organizations
- Addresses to key stakeholders only
