JEMS – Maintenance phase (2025-29)

Actual version: v.12 - (released end of 2024)

- Last technical release with improvements.
- As from 2025 on, only maintenance shall be ensured.
- Interact decided, however, to release new versions with the main purpose to improve the stability of JEMS.
- New releases expected to be shared every 6 month.

Upcoming version: v.13 - (currently under verification)

- New major technical upgrades which enhance both performance and security.
- New version of the NACE codes released by the European Commission, JEMS is therefore also updated.
- Improved and expanded options for exporting data and uploading attachments (new columns, new filters), updating plug-ins, and fixing bugs.

2025 plug-in: Automatic generation of the report and certificate for controllers.
